

Sidhant Kumar

(902) 943-6901 | sd247182@dal.ca | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

Dalhousie University

Sept 2023 – Present

Bachelor of Computer Science (CGPA – 4.11/4.3)

Halifax, NS

Co-op Work Term Availability: 4 months or 8 months

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java, Python, MySQL, PHP, Aseba, C, Node.js

Databases: MySQL, PostgreSQL, MongoDB, Oracle

Tools: Processing, Android Studio, IntelliJ, PyCharm, Eclipse, Jupyter, Git, VS Code, Cursor, Vercel

Frameworks: Bootstrap, JavaSwing, Pygame, Express.js, TailwindCSS, Flask

Machine Learning: Linear Regression, Gradient Descent, Feature Engineering, Data Preprocessing, Model Evaluation, NumPy, Pandas

EXPERIENCE

Software Developer – AI Trainer (Remote)

Nov 2024 – Mar 2025

DataAnnotation

- Reviewed AI-generated responses to ensure alignment with user requests.
- Developed and tested code to enhance system functionality and user experience.
- Collaborated with cross-functional teams to improve AI performance and resolve issues.
- Maintained high standards for quality assurance in AI systems.

PROJECTS

House Price Predictor — ML Web Application

Aug 2025 – Sept 2025

Python, Flask, NumPy, Pandas, Plotly, HTML/CSS, JavaScript

[GitHub](#) | [Live](#)

- Built linear regression model from scratch using gradient descent optimization.
- Achieved 72.8% R^2 accuracy predicting house prices on Ames Housing dataset.
- Engineered 16+ features through preprocessing, encoding, normalization.
- Deployed web app with real-time predictions and interactive dashboards.

Peer — Collaborative Coding & Communication Platform

Apr 2025 – Jul 2025

React, Node.js, WebRTC, WebSockets

[GitHub](#) | [Live](#)

- Developed a collaborative IDE with integrated chat and video.
- Optimized WebSocket sync for 10+ concurrent users with minimal latency.

Groki — AI Voice-Controlled Inventory Manager

Jan 2025 – Aug 2025

React, Node.js, Gemini API, Supabase

[GitHub](#) | [Live](#)

- Built a wake-word activated inventory system for hands-free usage.
- Integrated Gemini AI to suggest recipes from pantry contents.
- Implemented secure authentication and storage with Supabase.

Gitofy — GitHub/GitLab Companion (Android)

Jan 2025 – Aug 2025

Java, Android, GitHub REST API

[GitHub](#) | [APK](#)

- Created a mobile app for repository management and insights.
- Implemented OAuth login + push notifications for updates.
- Added contributor statistics and repo filtering features.

EXTRA CURRICULAR

NASA Space Apps Challenge

Oct 2024

Dalhousie University, Halifax, NS

- Collaborated with a diverse team of 5 to propose innovative solutions for real-world challenges posed by NASA.
- Participated in brainstorming sessions to align technical ideas with project goals.
- Developed Python game prototype using Pygame under a 24-hour deadline.

AWARDS & CERTIFICATIONS

- Dalhousie University Global Entrance Scholarship
- Sexton Scholar
- Machine Learning Specialization by Andrew Ng (Stanford, Coursera) [Certificate](#)
